TO: Mansfield® Plumbing Products Sales Team & Distribution Partners

RE: Product Discontinuations

As part of our ongoing efforts to improve our supply chain and optimize production to better serve our valuable customers, we are making changes in the Mansfield Urinals lineup.

The Cascade, 410UHE Urinal, is being replaced by the Cascade II, 414 Urinal, there are some subtle differences in the exterior appearance and the measurements.

CASCADE 410UHE

Product Dimensions (HxWxD):
26-1/4" x 18-5/8" x 14-1/4"

CASCADE II 414

Product Dimensions (HxWxD):
26-3/4" x 18-7/8" x 14-1/2"

To ensure an easy transition in order processing and clear delineation of inventories, we have issued new model numbers.

PRODUCT LINE	FAMILY	PART NUMBER	MODEL	PART DESCRIPTION	COLOR
CASCADE II	URINAL	414010000	414	URINAL 414UHE CASCADE WHT	WHITE

Effective immediately, all new purchase orders should be submitted using the new model numbers referenced below. The customer service team will reach out on a case-by-case basis for any existing orders that need to be adjusted. The pricing of the new models will be the same as the old models.

Please note that there will be no further production of the 410 Urinal Cascade models and we cannot accept returns, so please communicate this change immediately with customers to ensure proper transition of their inventories. If you have ongoing projects or special circumstances to discuss, please reach out your Regional Sales Manager as soon as possible.

Sincerely,

Juan Carlos Suarez
Marketing Director
